Join us to hear an expert panel discussion on the complex issue of violence against women in the digital era.

Our speakers will discuss the important findings of the recent 'SmartSafe' project by Domestic Violence Resource Centre Victoria. This project investigated the emerging issue of technology-facilitated stalking in the context of domestic violence.

Our panellists will also discuss other issues relating to technology and violence against women, such as non-consensual 'sexting' and 'revenge porn', and will consider the effectiveness of existing laws to address these issues.

## SPECIAL GUEST MODERATOR:

### HER HONOUR JUDGE FELICITY HAMPEL

Her Honour Judge Felicity Hampel was appointed to the bench of the County Court of Victoria in 2005. In July 2010 she was also appointed as a Vice President of the Victorian Civil and Administrative Tribunal.
